DRUG PLANTS  
Available in quantity

*Apocynum androsaemifolium* L., and others  
*Arctostaphylos uva-ursi* (L.) Spreng.  
*Arnica fulgens* Pursh., & others  
*Asarum caudatum* Lindl.  
*Berberis aquifolium* Pursh  
*Chimaphila umbellata* (L.) Nutt.  
*Coptis occidentalis* (Nutt.) Torr & Gray  
*Dryopteris filix-mas* (L.) Schott, & *Athyrium filix-foemina* (L.) Roth.  
*Grindelia squarrosa* (Pursh) Dunal., & *G. nana* Nutt.  
*Goodyera decipiens* (Hook.) Hubbard  
*Hyoscyamus niger* L.  
*Juniperus communis* L.  
*Monarda menthaefolia* Graham.  
*Polyporus fomentarius* Fr.  
*Pulsatilla lucoviciana* (Nutt.) Heller (*Anemone patens* L.)  
also *Anemone cylindrica* Gray, & *A. globosa* Nutt.  
*Sambucus glauca* Auth.  
*Verbascum thapsus* L. & *V. blatteria* L.  
*Shepherdia argentea* Nutt. (*Lepargyraceae*)

Less abundant or allied species

*Achillea lanulosa* Nutt.  
*Aconitum columbianum* Nutt.  
A. *lutescens* A. Nels.  
*Acorus calamus* L.  
*Actaea arguta* Nutt.  
*Adenocaulon bicolor* Hook.  
*Adiantum pedatum* L.  
*Agropyron repens* (L.) Beauv.  
A. *Smithii* Rydb.  
*Alisma plantago-aquatica* L. var.  
*Alnus tenuifolia* Nutt.  
A. *sinuata* (Regel.) Rydb.  
*Amanita muscaria* Fr.  
*Ambrosia trifida* L.  
*Amelanchier alnifolia* Nutt.  
*Anaphalis margaritacea* (L.) Gray, & others (Convallaria) *Smilacina* *amplexicaulis* Nutt.  
See also: *Adenocaulon*, *Gnaphalium*,  
and *Antennaria*.  
*Angelica arguta* Nutt.  
*Intenaria rosea* Greene  
*Aralia nudicaulis* L.  
*Arctium minus* Bernh.  
A. *lappa* L.  
*Arenaria congesta* Nutt.  
A. *lithophila* Rydb.  
A. *nardifolia* Hook.  
*Artemisia absinthium* L.  
A. *cana* Pursh  
A. *dracunculoides* Pursh  
A. *frigida* Willd.  
A. *gnaphalodes* Nutt.  
A. *tridentata* Nutt.  
*Asclepias speciosa* Torr.  
*Balsamorrhiza sagittata* (Pursh) Nutt.  
*Betula fontinalis* Sarg.  
B. *glandulosa* Michx.  
B. *papyrifera* Marsh.  
B. *occidentalis* Hook.  
*Poletus*, *Agaricus*, *Polyporus*,  
Lycoperdon, and other fungi.  
*Bossechia parviflora* (Nutt.) Greene  
*Braunaria augustifolia* (DC.) Heller  
*Caltha leptosepala* DC.  
*Camassia quamash* (Pursh) Greene  
*Campanula petiolata* A. DC., & others  
*Capsella bursa-pastoris* (L.) Medic.  
*Carduus nutans* L.  
*Ceanothus velutinus* Dougl.

*Centaurea maculosa* Lam.  
*Cerastium arvense* L.  
C. *strictum* L.  
*Cetraria islandica* (L.) Ach.  
and other lichens.  
*Chara vulgaris*, & others  
*Chrysopsis villosa* (Pursh) Nutt.  
*Chrysanthus nauseosus* (Pall.) Brit.  
C. *viscidiflorus* (Hook.) Nutt.  
*Cicuta Douglasii* (DC.) C. & R.  
*Cirsium arvensis* L.  
C. *foliosum*, & others  
*Claytonia lanceolata* Pursh  
*Clematis hirsutissima* Pursh  
*Comandra pallida* A. DC.  
(*Convallaria*) *Smilacina* *amplexicaulis* Nutt.  
S. *racemosa* (L.) Desf.  
S. *sessilifolia* Nutt.  
S. *stellata* (L.) Desf.  
*Convolvulus arvensis* L.  
*Corallorrhiza maculata* Raf.  
*Cornus canadensis* L.  
C. *stolonifera* Michx.  
*Corydalis aurea* Willd.  
*Crataegus columbiana* Howell  
C. *Douglasii* Lindl.  
C. *Williamsii* Egg.  
*Cymopterus glaucus* Nutt.  
*Cypripedium montanum* Dougl.  
*Delphinium bicolor* Nutt.  
D. *scopulorum* Gray, & others  
*Dodecatheon radicatum* Greene  
*Drosera rotundifolia* L.  
*Dryopteris dilatata* (Hoffm.) Undr.  
*Echinopanax horridum* (SM.) T. & G.  
*Epilobium angustifolium* L.  
*Equisetum* sp.  
*Erigeron canadensis* L.  
*Erodium cicutaria* (L.) L'Her.  
*Erysimum elatum* Nutt.  
*Erythronium grandiflorum* Pursh & var.  
*Euphorbia cyparissias* L.  
*Galium boreale* L.  
G. *trifidum* L.  
*Gentiana calycosa* Griseb.  
*Geranium viscosissimum* Fisch. & Mey., & others  
*Geum* sp.  
*Glycyrrhiza lepidota* Nutt.

For crude botanicals, seed, living plants, herbarium or study materials, in fact for any collected plant material native to the Northern Rocky Mountains, write

Frank H. Rose,  
1020 Poplar St.,  
Missoula, Mont.

to understand, easily giving bees, also made short and  
labeled just before use so that it is easier when  
etire, containing 1000 mg of Methyltestosterone.

James H. Rose  
1950 Professor of  
Botany, University

WHATS IN A NAME

Here is a check list of determinations on 300 of the plants I regularly collect. Where identical Latin names are found, they refer to these same plants. Common names (page 11) are frequently local and may apply to different plants in different sections of the country.

Don't expect too much. These plants are scattered over parts of three states: Montana, northern Idaho, and northwest Wyoming. Some will be under snow until late July. Some vary from year to year in abundance and some are hard to find. I know my plants and where they grow, and will do my best to please you; but often your order can not be shipped immediately or all at one time. Photographs of many plants of this region may be found in the Government bulletins: Plants of Glacier (50¢), Yellowstone (25¢) and Rocky Mt. (25¢) National Parks. Make your tests and plantings adequate. With few exceptions, I furnish 3 plants at twice the unit price, 10 at 4 times the unit price. All plants F.O.B. Missoula. (\*) My preference as to the genus listed.
